Why You will Find Weller's Perennials the Best

Weller's Herbaceous Perennials

Because our growers make a specialty of growing them to perfection, and make it their point to give you SERVICE, QUALITY AND VALUE. Their plants make REAL ROOTS, and what is more important to a Perennial than a GOOD ROOT SYSTEM?

GENERAL LIST

All plants offered in this list are strong, field grown, two-year-old, transplanted, unless otherwise specified, and biennials. Our Plants bloom the first season. Terms: 30 days; 2% in 10 days; 3% for cash with order. Packing extra at cost. Please state whether we may substitute in case we are short.

We can not fill orders for less than 5 of one kind. 5 plants or more of a variety sell at per 10 rate; 25 or more at the per 100 rate. Order 25 of a kind wherever possible. If you need 20 of a kind, be sure to order 25. It's cheaper.

Those marked (*) are especially suited for cutting; those marked with (†) are best suited for rockeries. Those printed in larger type are novelties.

In description the flowering period is indicated by the name of the month as May-June, etc.

DIANTHUS NANUS COMPACTUS (Spherical Hardy Pink)

†MRS. DINA WELLER. (New). Beautiful little globe-shaped plant of deep green foliage, forming a perfectly round solid clump of about 12 inches in diameter. In the spring this plant is completely covered with half-dollar size single flowers of a delicate salmon color with a faint lavender hue and a bright carmine ring in the center. It is a self-type with no variations, with 100 percent perfect flowers. It is perfectly hardy and while the main crop of flowers is in the early spring, it continues to flower until frost. A fine plant for the rockgarden and for bordering. It might also serve as a potplant of which we are making tests. Field-grown plants

We grow more outdoor Hardy Chrysanthemum than any other grower in this country. One reason, because we love them. There is nothing more beautiful than a good field of Hardy Mums. Another reason, because our soil is excellent for the growing of Mums. They do well on sandy soils. Our Mums are always free from any disease, rot or blight and will grow anywhere with unusual vigor. See pages 6 and 7.

For Advertising Value during your fall season, there is nothing that gives more color to your sales place, nothing that draws more interest in nursery stock, than a good patch or block of Hardy Mums, planted where the public can see it without effort. There is no cheaper method to advertise your place of business. The above picture tells.
